Intern

Aim For Tech

01/2023 - Present

Indore

Software & Game Development

Achievements/Tasks

- Developed and implemented responsive web pages and user interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal performance.
- Stayed up-to-date with emerging trends and technologies in front-end development, actively seeking opportunities to enhance skills and expand knowledge base.
- Collaborated with the design team to translate wireframes and mockups into interactive web experiences, ensuring a seamless and visually appealing user experience.
- Stayed up-to-date with emerging trends and technologies in front-end development, actively seeking opportunities to enhance skills and expand knowledge base.
- Implemented SEO best practices, including proper semantic markup, meta tags, and keyword optimization, to improve search engine visibility and website rankings.

PERSONAL PROJECTS

Food Store App (01/2023 - Present)

- Developed a Food Store App using React, providing a user-friendly interface for customers to browse and order food items
- Utilized React components, including stateful and stateless components, to create modular and reusable UI elements
- Utilized React Router for client-side routing, enabling smooth navigation between different sections and pages of the app

News App & Ecommerce App (01/2023 - Present)

- Developed a News & Ecommerce application using React framework, providing users with a seamless and interactive browsing experience
- Implemented responsive user interfaces using modern frontend technologies, such as HTML5, CSS3, and JavaScript, to ensure optimal performance across different devices and screen sizes
- Utilized React components, state management, and routing to create a modular and maintainable codebase, enhancing code reusability and development efficiency
- Integrated external APIs and services, such as news APIs or e-commerce platforms, to fetch and display real-time news articles and product listings, enhancing the app's functionality

QR & Quote Generator (01/2023 - Present)

- Developed a simple QR and Quote Generator application using React, showcasing fundamental knowledge and skills in front-end development.
- Utilized React components and state management to create interactive and dynamic features.
- Kept abreast of current industry trends and best practices in React development, applying relevant techniques to the project.
